PURVIEW DEPLOYMENT SERVICE

The Problem

Securing sensitive data and maintaining regulatory compliance are critical challenges for modern organisations. Microsoft Purview offers a comprehensive solution for data governance, but effective deployment is key to maximising its value and ensuring security and compliance.

The Solution

The Purview Deployment Service from HANDD Business Solutions (HANDD) provides a tailored approach to deploying and managing Microsoft Purview within your organisation. From setup to ongoing support, we ensure your teams can fully leverage Purview's capabilities to safeguard your data and streamline compliance.

How does HANDD's Purview Deployment Consultancy Service work?

- We assess your current data governance posture and develop a customised deployment plan.
- Microsoft Purview is deployed and configured to integrate with your existing data sources and security frameworks.
- Our experts implement Purview's data classification, protection policies, and compliance features, ensuring visibility and control across your data estate.
- We train your IT and compliance teams to effectively manage Purview for ongoing data security.
- Continuous support and periodic reviews provided to ensure sustained performance and compliance.

Key Features and Benefits:

- **Comprehensive Data Security:** Leverage Purview's features for data classification, encryption, and access control to protect sensitive information.
- **Unified Data Management:** Manage and govern your entire data estate across on-premises, cloud, and SaaS environments.
- **Automated Compliance:** Align Purview's compliance features with your organisation's regulatory requirements (e.g., GDPR, HIPAA).
- **Data Discovery and Classification:** Automatically discover and classify data to ensure protection and compliance.
- **Scalability:** Our deployment services scale to meet your organisation's specific data governance needs.

Why Choose HANDD?

HANDD offers extensive experience in deploying data governance solutions across various industries, customisable deployments tailored to your specific data security and compliance needs, and ongoing support to ensure sustained value from your Purview deployment.

HANDD offer custom pricing based on organisational needs for this service. To discuss your requirement, get in touch at hello@handd.co.uk
